

# tempting template

K. Cantrell of Ozark, Missouri sent in this sweet paper doll chain and we saw template potential written all over it. Her beaded safety pins, cut-out letters, gemstones, beads, paper flowers, and a tiny locket made super embellishments. Now let's see what you can do. We encourage you to alter the dimensions and play around — just don't forget the stamping. Send in your ideas to be published in the August/September 2007 issue.

Absolute deadline — April 1, 2007
