## Fanciful Fan

A paper fan like this one is both functional and pretty! Andrea Marrs of Victoria, British Columbia, Canada, describes her fan panels as “light bulb shapes” that when strung together make a beautiful canvas for stamping, brayering and embellishment. Try this template in your own style, using any stamps, colors or themes. Think Victorian, Asian, party invitation, holiday, pool party, and MORE!

Absolute Deadline — December 1, 2004

Stamp Credits: Stampington & Company,  
All Night Media, Hero Arts, Acey Deucy

1. Trace template six times on desired card stock.
2. Cut out.
3. Stamp, color and embellish.
4. Secure fan blades with an eyelet at base.
5. Attach a continuous ribbon to the backside of the blades, allowing them to unfold evenly.

You can find all templates past and present, online at [www.stampington.com](http://www.stampington.com). Click on the box marked “Tempting Template” in the left navigation bar on the home page.
