

Historically, masquerade balls started as a way to celebrate Carnival, but later took on a playful, competitive tone. Attendees were challenged to guess who was behind each mask, based on the style and décor of the mask itself. Here we present our mask template, and a similar challenge — how will you decorate and embellish your mask so that your personality and style clearly shine through? Will you adorn it in feathers? Will you go with a bright color palette, or something more subdued? Whatever you dream up, we can't wait to see it! Remember to include stamping on your mask and please send us your samples by February 15, 2013 for possible inclusion in our July/September/August 2013 issue.

Tempting Template

Celebrate You
7¼" x 2¾"
Andrea Rangno
Mission Viejo, CA

Absolute Deadline — February 15, 2013
